

PROFESSIONAL RECORD

RYAN CARTER

President of Ecology

Education:

B.S. Forest Resources
and Conservation

University of Florida,
1997

Years Experience: 14

PROFESSIONAL EXPERIENCE SUMMARY

Mr. Carter is a natural resource professional who specializes in environmental permitting in Florida. He has 15 years experience in the environmental industry. His expertise includes environmental permitting with the state and federal governments, the identification of native flora and fauna, forest ecology and management, and wetland mitigation design and monitoring. His education in the management of Florida ecosystems coupled with his experience in private consulting and experience with federal, state, and local governments make him an excellent scientist to manage or assist with any project.

RESPONSIBILITIES WITH NATURAL RESOURCE CONSULTANTS, LLC

Mr. Carter has 11 years experience as an environmental consultant and 3 years experience working with local and federal environmental divisions. As an Office Manager and President of Ecology, his responsibilities include all aspects of environmental constraints faced by development of all sizes and assisting in attainment of necessary permits for impacting wetlands and protected species. This work includes environmental permitting, wetland delineation, protected animal species surveys, preliminary site assessments, Florida native plant taxonomy, ecological monitoring aerial photo interpretation, operation of a global positioning system unit and wetland creation design.
